

FEEDING SYSTEMS, STORAGE SILOS & INGREDIENT HANDLING SYSTEMS

FOOD • PLASTICS • CHEMICAL • RECYCLING • DETERGENT • PHARMACEUTICAL

Materials handling experts for the plastics industry

Feeding Solutions

Kubota Brabender Technologie GmbH offer an extensive range of feeding solutions including:- volumetric feeders, gravimetric feeders, gain-in-weight systems, continuous feeding, batching solutions, full turnkey systems and the latest in control technology.

Internal Fabric Silos

Walter Krause GmbH design and manufacture fabric internal silos for all kinds of products, ranging from difficult flowing powders, free flowing pellets to poor flowing flakes & regrind. The silos can range from 250kg in capacity with mobile units, up to 50tonnes with fixed silos. The silos can be filled directly from road tankers as well as by alternative pneumatic and mechanical systems. Various options are available for level control, assisted discharge and process connections to conveying systems at the silo outlet, such as rotary valves and vacuum take off boxes.

Prop-Flow Hopper & Silo Discharger

The Genesis PROP-FLOW has been designed specifically to discharge difficult products such as flake and regrind. The rotating arm causes positive product displacement. Sizes are available from 800mm to 1200mm diameter, with stainless steel or mild steel contact parts.

Strand Pelletizers

Bay Plastics Machinery are the USA based manufacturer of strand pelletizing systems. The UK range of machinery offers laboratory scale up to high production units with the latest strand cutting technology, as well as easy cleaning solutions. Full spare parts and re-sharpening services are available, as well as water baths and vibratory screens.

Gravimetric Blenders & Materials Management

TSM Control Systems provides innovative end to end solutions in gravimetric blending, controls and material management for plastics processors. We use real time data to advise on products, materials usage and systems that ensure exceptional quality and drive efficiency for our customers while exceeding their performance expectations. Our collaborative and responsive approach keeps our projects on time and on budget.
